

Sustainability Problems

Evaluation of "Go Fix It!" Wiki Post

Name _____

1. Is the collage striking, unpredictable and memorable? Is there an effective title on the slide?
 2. Does the collage have a caption that explains it, briefly articulating the main point of the presentation – persuading viewers that the “go fix it” intervention proposed is both urgent and feasible?
 3. Does the text provide detail on the complexity and magnitude of the problem the proposed intervention responds to?
 4. Does the text provide a creative, well-conceived response to the problem detailed above, highlighted how the proposed intervention would advance environmental sustainability?
 5. Does the text provide supporting details – on the aim of the intervention, on components of the intervention, on stakeholders, on likely barriers to the success of the intervention?
 6. Does the presentation demonstrate in-depth engagement with its (at least one) academic references -- beyond the abstract?
 7. Do supporting links provide additional, useful information on the problem?
 9. Are there appropriate citations throughout, for images as well as for information and quotations in the text?
 10. Is the wiki presentation effectively organized?
